## PROJECTS

Expense Tracker [↗](#) | React

2023

- It is a simple **React** app that I have made for learning and Brushing my skills in **Web D**. This project helps you keep account of your yearly expenses I have proficiently used **CSS** to display in which month is the expense increased or decreased .
- This project helped me learn basics of **React**, Use of Components, props & state management etc .
- Overall its a basic project that helped me understood React Proficiently .

WeatherApp [↗](#) | React

2023

- Its a weatherApp which I have created using **React** and **OpenWeatherMap Api** also i have integrated **Google Map** in it.
- This app gives us the weather update as well as shows us the location of the place of which we are getting the info of.

MonsterMarket [↗](#) | HTML5|CSS3

2022

- This was my Ist year project and the first ever project through which i have gained a lot of interest & experience in web development
- I have used **HTML5** & **CSS3** for this project as it was one of my first project.
- Its a static design of an E-commerce website where i have used the inspiration from **TheSouledStore** website

TicTacToe [↗](#) | React

2023

- I have made this project as a challenge from the **Fontendmentor** website although the design is not that familiar but I learnt a lot as this project sharpened my props & state management skill in React

Portfolio [↗](#) | Next|Tailwind

2023

- My portfolio website is a showcase of my work as a web developer. It features a variety of projects that I have worked on, including websites and web applications.
- To get familiar with the techstack I have used **Nextjs** as well as **Tailwind** and I have learned a lot in making of this portfolio website
